

Year 6 Learning Journal – Week Ending 19th October

Numeracy

This week the children have carried out assessment tests to find out how much progress they have made this half term.

For homework they have got some problems to solve where they have to use the facts that they have been given to work out new facts.

Literacy

We have started a new unit of work on journalistic writing. We have found out that this genre of writing (such as newspaper reports) contain answers to the following questions:

Who? Where? When? What? Why?

The children need to read through the article 'Snail Trail' to find the answer to these questions.

Science

In science we are continuing our unit on 'Changing Circuits'.

In preparation for next week's end of unit test, the children have been given a vocabulary list to revise the meaning of some scientific words associated with this topic. They have also got some SATs questions to answer.
