

Becket Primary School

Data Protection Policy

The Data Protection Act 2018 is the law that protects personal privacy and upholds individual's rights. It applies to anyone who handles or has access to people's personal data.

Becket Primary School intends to comply fully with General Data Protection Regulations (GDPR) and the requirements and principles of the Data Protection Act 2018.

We have a duty to be registered, as Data Controllers, with the Information Commissioner's Office (ICO) detailing the information held and its use. These details are then available on the ICO's website.

Becket Primary School collects and uses personal information about staff, pupils, parents and other individuals who come into contact with the school. Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held. This information is gathered in order to enable it to provide education and other associated functions.

In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations. We also have a duty to issue a Privacy Notice to all pupils, parents and staff; this summarises the information we hold, why it is held and the other parties to whom it may be passed on. Privacy notices are published on our website and are also available in the school office.

1. Scope of the Policy

This policy is intended to ensure that personal information held by Becket Primary School is dealt with correctly and securely and in accordance with GDPR, the Data Protection Act 2018 and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored and destroyed and irrespective of whether it is held in paper files or electronically.

All staff involved with the collection, processing, disclosure and destruction of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

Pupils, parents and staff have the right to access information held by the school. The most important rights are contained in the following legislation:

- Data Protection Act 2018
- Education (Pupil Information) (England) Regulations 2005
- Freedom of Information Act 2000

2. The Key Principles of the GDPR

Lawfulness, transparency and fairness.

School must have a legitimate reason to hold the data, we explain this in the Data Privacy Notices on the website. We often ask for consent to use data about a pupil for a particular purpose. If you wish to withdraw consent we have a form to complete to allow us to process your request. There are sometimes when you cannot withdraw consent as explained in 'Data Subjects Rights'.

Collect data for a specific purpose and use it for that purpose

So, data cannot be used for a purpose that it was not originally collected for, or where notice has not been given about how data may be used after collection.

Limited collection

Data controllers should only collect the minimum amount of data needed for a particular task or reason. If there is a breach or a hack only limited information can be lost.

Accuracy

Data collected should be accurate, and steps should be taken to check and confirm accuracy. We do this when pupils join the school and check on an annual basis.

If a Data Subject feels that the information held is inaccurate, should no longer be held by the Controller or should not be held by the Controller in any event a dispute resolution process and complaint process can be accessed, using the suitable forms.

Retention

Becket Primary School has a retention policy that explains how long we store records for. This is available on request.

Security

We have processes in place to keep data safe. That might be paper files, electronic records or other information. Paper files are stored securely with access limited to key members of staff. Electronic systems have the necessary firewall and security systems and a tiered intranet system so that the most sensitive information can only be accessed by members of the Senior Leadership Team.

3. Who is a 'data subject'?

Someone whose details we keep on file. Some details are more sensitive than others. The GDPR sets out collection of details such as health conditions and ethnicity which are more sensitive than names and phone numbers.

Data subjects' rights

Individuals have a right:-

- to be informed
- of access to data stored about them or their children
- to rectification if there is an error on the data stored
- to erasure if there is no longer a need for school to keep the data
- to restrict processing, i.e. to limit what is done with their data
- to object to data being shared or collected

There are other rights that relate to automated decision making and data portability that are not directly relevant in schools.

Data subjects rights are also subject to child protection and safeguarding concerns, sharing information for the prevention and detection of crime. Schools also have legal and contractual obligations to share information with organisations such as the Department for Education, Social Care, the Local Authority and HMRC amongst others. In some cases these obligations override individual rights.

4. Subject Access Requests

You can ask for copies of information that we hold about you or a pupil who you have parental responsibility for or are a parent of at school. This Subject Access Request process is set out separately. You need to fill out the form, and you may need to provide identification evidence for us to process the request.

We have to provide the information within a month, but this can be extended if, for example, the school was closed for holidays. The maximum extension is up to two months.

When we receive a request we may ask you to be more specific about the information that you require. This is to refine any queries to make sure you access what you need, rather than sometimes getting a lot of information that may not be relevant to your query.

In some cases we cannot share all information we hold on file if there are contractual, legal or regulatory reasons.

We cannot release information provided by a third party without their consent, or in some cases you may be better to approach them directly, e.g. school nurses who are employed by the NHS.

We will supply the information in an electronic form.

If you wish to complain about the process, please see our complaints policy and later information in this DPA policy.

5. Who is a 'data controller'?

Our school governing body is the data controller. They have ultimate responsibility for how school manages data. They delegate this to data processors to act on their behalf.

6. Who is a 'data processor'?

This is a person or organisation that uses, collects, accesses or amends the data that the controller has collected or authorised to be collected. It can be a member of staff, a third-party company, possibly a governor, a contractor or temporary employee. It can also be another organisation such as the police or the LA.

Data controllers must make sure that data processors are as careful about the data as the controller themselves. The GDPR places additional obligations on organisations to make sure that Data Controllers require contractual agreements to ensure that this is the case.

7. Processing data

School must have a reason to process the data about an individual. Our privacy notices set out how we use data. The GDPR has 6 conditions for lawful processing and any time we process data relating to an individual it is within one of those conditions.

If there is a data breach we have a separate policy and procedure to follow to take immediate action to remedy the situation as quickly as possible.

The legal basis and authority for collecting and processing data in school are:-

- consent obtained from the data subject or their parent

- performance of a contract where the data subject is a party
- compliance with a legal obligation
- to protect the vital interests of the data subject or other associated person
- to carry out the processing that is in the public interest and/or official authority
- it is necessary for the legitimate interests of the data controller or third party
- in accordance with national law.

In addition, any special categories of personal data are processed on the grounds of

- explicit consent from the data subject or about their child
- necessary to comply with employment rights or obligations
- protection of the vital interests of the data subject or associated person
- being necessary to comply with the legitimate activities of the school
- existing personal data that has been made public by the data subject and is no longer confidential
- bringing or defending legal claims
- safeguarding
- national laws in terms of processing genetic, biometric or health data.

Processing data is recorded within the school systems.

8. Data Sharing

Data sharing is done within the limits set by the GDPR. Guidance from the Department for Education, health, the police, local authorities and other specialist organisations may be used to determine whether data is shared.

The basis for sharing or not sharing data is recorded in school.

9. Breaches & Non Compliance

If there is non compliance with the policy or processes, or there is a DPA breach as described within the GDPR and DPA 2018 then the guidance set out in the Breach & Non Compliance Procedure and Process needs to be followed.

Protecting data and maintaining data subjects rights is the purpose of this policy and associated procedures.

The Breach & Non Compliance Procedures are in appendix 1.

10. Consent

As a school we will seek consent from staff, volunteers, young people, parents and carers to collect and process their data. We will be clear about our reasons for requesting the data and how we will use it. There are contractual, statutory and regulatory occasions when consent is not required. However, in most cases data will only be processed if explicit consent has been obtained.

Consent is defined by the GDPR as “any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her”.

We may seek consent from young people also, and this will be dependent on the child and the reason for processing.

11. Consent and Renewal

On the school website we have 'Privacy Notices' that explain how data is collected and used. It is important to read those notices as it explains how data is used in detail.

Obtaining clear consent and ensuring that the consent remains in place is important for school. We also want to ensure the accuracy of that information.

12. For Pupils and Parents/Carers

On arrival at school you will be asked to complete a form giving next of kin details, emergency contact and other essential information. We will also ask you to give consent to use the information for other in school purposes, as set out on the data collection/consent form.

We review the contact and consent form on an annual basis. It is important to inform school if details or your decision about consent changes. A form is available.

13. Pupil Consent Procedure

Where processing relates to a child under 16 years old, school will obtain the consent from a person who has parental responsibility for the child.

Pupil's may be asked to give consent or to be consulted about how their data is obtained, shared and used in certain situations.

14. Withdrawal of Consent

Consent can be withdrawn, subject to contractual, statutory or regulatory constraints. Where more than one person has the ability to provide or withdraw consent the school will consider each situation on the merits and within the principles of GDPR and also child welfare, protection and safeguarding principles.

Please complete the appropriate form.

15. CCTV Policy

We use CCTV and store images for a period of time. CCTV may be used for:- Detection and prevention of crime

School staff disciplinary procedures

Pupil behaviour and exclusion management processes

To assist the school in complying with legal and regulatory obligations

16. Data Protection Officer

We have a Data Protection Officer whose role is to:-

- to inform and advise the controller or the processor and the employees who carry out processing of their obligations under the GDPR

- to monitor compliance with the GDPR and DPA
- to provide advice where requested about the data protection impact assessment and monitor its performance
- To be the point of contact for Data Subjects if there are concerns about data protection
- to cooperate with the supervisory authority and manage the breach procedure
- to advise about training and CPD for the GDPR

Our DPO is J A Walker, Flint Bishop Solicitors.

17. Physical Security

In school, every secure area has individuals who are responsible for ensuring that the space is securely maintained and controlled if unoccupied, i.e. locked. Offices and cupboards that contain personal data should be secured if the processor is not present.

The Site Manager is responsible for authorising access to secure areas along with SLT/business Manager.

All Staff, contractors and third parties who have control over lockable areas must take due care to prevent data breaches.

18. Secure Disposal

When disposal of items is necessary a suitable process must be used. This is to secure the data, to provide a process that does not enable data to be shared in error, **by** malicious or criminal intent.

These processes, when undertaken by a third party are subject to contractual conditions to ensure GDPR and DPA compliance.

Hardware is disposed / recycled by a data destruction and certification company who can provide evidence that Data destruction is done to INFOSEC level 5, which is HMG approved.

Hard copy files are destroyed by School Business Manager

Servers and Hard drives are cleansed by a data destruction and certification company who can provide evidence that Data destruction is done to INFOSEC level 5, which is HMG approved.

Portable and removable storage are destroyed / cleaned/ recycled by a data destruction and certification company who can provide evidence that Data destruction is done to INFOSEC level 5, which is HMG approved.

19. Complaints & the Information Commissioner Office (ICO)

The school Complaint Policy deals with complaints about Data protection issues.

There is a right to complain if you feel that data has been shared without consent or lawful authority.

You can complain if you have asked to us to erase, rectify, not process data and we have not agreed to your request.

We will always try to resolve issues on an informal basis, and then through our formal complaints procedure. Please complete the form, and we will contact you with more details about the timescale and process.

In the UK it is the ICO who has responsibility for safeguarding and enforcing the DPA obligations. Email:

casework@ico.org.uk Helpline: 0303 123 1113 web: www.ico.org.uk

20. Review

A review of the effectiveness of GDPR compliance and processes will be conducted by the Data Protection Officer every 12/24 months.

Signature of Head teacher:

Signature of Chair of Governors

Date:

Data Protection Breach & Non Compliance Procedure

All staff, governors and trustees must be aware of what to do in the event of a DPA / GDPR breach. The 'Data Breach Flowchart' outlines the process.

The 'Data Breach Form' must be completed and updated as the process progresses.

Most breaches, aside from cyber criminal attacks, occur as a result of human error. They are not malicious in origin and if quickly reported are often manageable.

Everyone needs to understand that if a breach occurs it must be swiftly reported. Examples

of breaches are:-

- Information being posted to an incorrect address which results in an unintended recipient reading that information
- Loss of mobile or portable data device, unencrypted mobile phone, USB memory stick or similar
- Sending an email with personal data to the wrong person
- Dropping or leaving documents containing personal data in a public place
- Personal data being left unattended at a printer enabling unauthorised persons to read that information
- Not securing documents containing personal data (at home or work) when left unattended
- Anything that enables an unauthorised individual access to school buildings or computer systems
- Discussing personal data with someone not entitled to it, either by phone or in person. How can you be sure they are entitled to that information?
- Deliberately accessing, or attempting to access or use personal data beyond the requirements of an individual's job role e.g. for personal, commercial or political use. This action may constitute a criminal offence under the Computer Misuse Act as well as the Data Protection Act.
- Opening a malicious email attachment or clicking on a link from an external or unfamiliar source, which leads to school's equipment (and subsequently its records) being subjected to a virus or malicious attack, which results in unauthorised access to, loss, destruction or damage to personal data.

What to do?

Being open about the possible breach and explaining what has been lost or potentially accessed is an important element of working with the ICO and to mitigate the impact. Covering up a breach is never acceptable and may be a criminal, civil or disciplinary matter.

Report the breach to the Data Controller, Data Protection Compliance Manager and DPO as soon as possible, this is essential.

The breach notification form will be completed and the breach register updated.

If the personal data breach is likely to result in a risk to the rights and freedoms of the data subjects affected by the personal data breach notification to those people will be done in a co-ordinated manner with support from the DPO.

The breach report will be within 72 hours of becoming aware of the breach. It may not be possible to investigate the breach fully within the 72 hour timeframe. Information about further investigations will be shared with the ICO with support from the DPO.

Procedure – Breach notification data controller to data subject

For every breach the school will consider notification to the data subject or subjects as part of the process. If the breach is likely to be high risk they will be notified as soon as possible and kept informed of actions and outcomes.

The breach and process will be described in clear and plain language.

If the breach affects a high volume of data subjects and personal data records, the most effective form of notification will be used and discussed with the Data Controller with support from the Data Protection Compliance Manager and DPO.

Advice will be taken from the ICO about how to manage communication with data subjects if appropriate.

A post breach action plan will be put into place and reviewed.

Evidence Collection

It may be necessary to collect information about how an information security breach or unauthorised release of data occurred. This evidence gathering process may be used as an internal process (which can include disciplinary proceedings), it may be a source of information for the ICO, it could also be used within criminal or civil proceedings.

This process will be conducted by a suitable member of school staff, which may be the Data Management Compliance Officer or Data Protection Officer, but will be determined depending on the nature of the breach.

Guidance may be required from external legal providers and police may be involved to determine the best way to secure evidence.

A record of what evidence has been gathered, stored and secured must be available as a separate log. Files and hardware must be securely stored, possibly in a designated offsite facility.
